

Our 2 daughters attend the crèche, one for 2 years since she was 8 months and one for 6 months since she was 7 months. They both love going in every morning and enjoy going in to a sea of happy faces inside. They are each greeted personally which is great, they are treated as individuals. Every little detail is looked after; we get told if they're off form or any incidents that may have occurred. They love going out to the playground and you always know that the sun cream has been applied and they have been minded well.

We'd have no hesitation in recommending the crèche to other parents.

Regards,
Paula Holton
