

Alex's mom here.

Our son has been attending the crèche since he was 7 months old (now 19 months old) and is currently attending 3 days a week. He thoroughly enjoys going to the crèche and he rarely (if ever) cries when he's dropped off. The crèche itself is a wonderful facility with lots of toys, books and activities to keep the little ones occupied, a great outdoor play area and with a very active little boy this is great! We love the facilities they have and they provide and can trust the minders to look after him for the time he is there. We get reports and art work sent home which always brightens our day as parents to be kept updated on what progress he's making.
